Care Quality Commission
Easy read meetings
Christopher Porter

At our last Partnership Board we had a presentation from Caroline Bairstow. Caroline is an inspector for the Care Quality Commission.

Before she came to the Partnership Board we sent her our Top Tips for making presentations easier to understand.

When Caroline showed the Care Quality Commission our Top Tips they had to think again about the their easy read information.

After the Partnership Board, Caroline told us they were setting up a meeting to get people's thoughts on how their information could be made to easier to read and understand.

I was invited to the first meeting along with other people from around the country. We had another meeting in Leeds last month.

We have been looking at the Care Quality Commission reports to tell them what we think is good easy read and how this can be made better.

There is still a lot more work to do but we have made a great start.

At our last meeting we met people from Photosymbols who asked us if we would like to model photos for them.

We are now talking to them to find out how we can make this work.
