

Big Ideas for Health and Adult Services

North Yorkshire County Council wants to make social care work better in the future

We want to ask people all across North Yorkshire what you think is important

What should we do over the next 5 years?

In 2015 we released *2020 North Yorkshire*. It helped us think about what we wanted Health and Adult Services to be like.

Lots of things have changed since 2015!

This means it is a good time to talk about a new vision for 2025.

We have 3 ambitious goals...

Goal 1

‘Opportunities for everyone, everywhere’

This means whoever you are and wherever you live you should be treated the same and get the services you need.

We have 3 ambitious goals

Goal 2

‘People’s times and experiences are valued’

This means we will try and make sure it is easy to work with us in a way that suits you.

We will also find ways to listen to you and make our services better.

We have 3 ambitious goals

Goal 3 - 'Home first'

This means being able to live at home where you choose as long as you want to

What do you think?

- Do you think these are good ideas?
- How can the Partnership Board help?
- Talk about it in your groups and then tell everyone what your group said.

What happens next?

- Louise will take you ideas back to her colleagues
- We want to finish the vision by December
- There will be a new vision from 2020 - 2025
