

# Creative Health in North Yorkshire

## Where are we now?

- Establishing a North Yorkshire Creative Health Development and Impact Framework
- Delivering year one of a 3-year project funded through NYC Culture, Localities and Public Health Services

## We aim to:

- Maximise community contributions to the creative health agenda
- Connect communities with regional health and cultural organisations
- Build collaborative links within North Yorkshire

Led by Pioneer Projects and Orb Community Arts we are currently developing a bespoke approach:

- Creating a North Yorkshire-specific Creative Health model
- Adapting the Culture Health & Wellbeing Alliance's Creative Health Quality Framework for staff development, project design, and delivery of a skills and confidence-building training programme
