Accessibility Menu

♿ Make Windows work better for you

The **Accessibility Menu** brings together helpful tools and settings to make your device easier to see, hear and use.
Explore the options and find what works best for you.

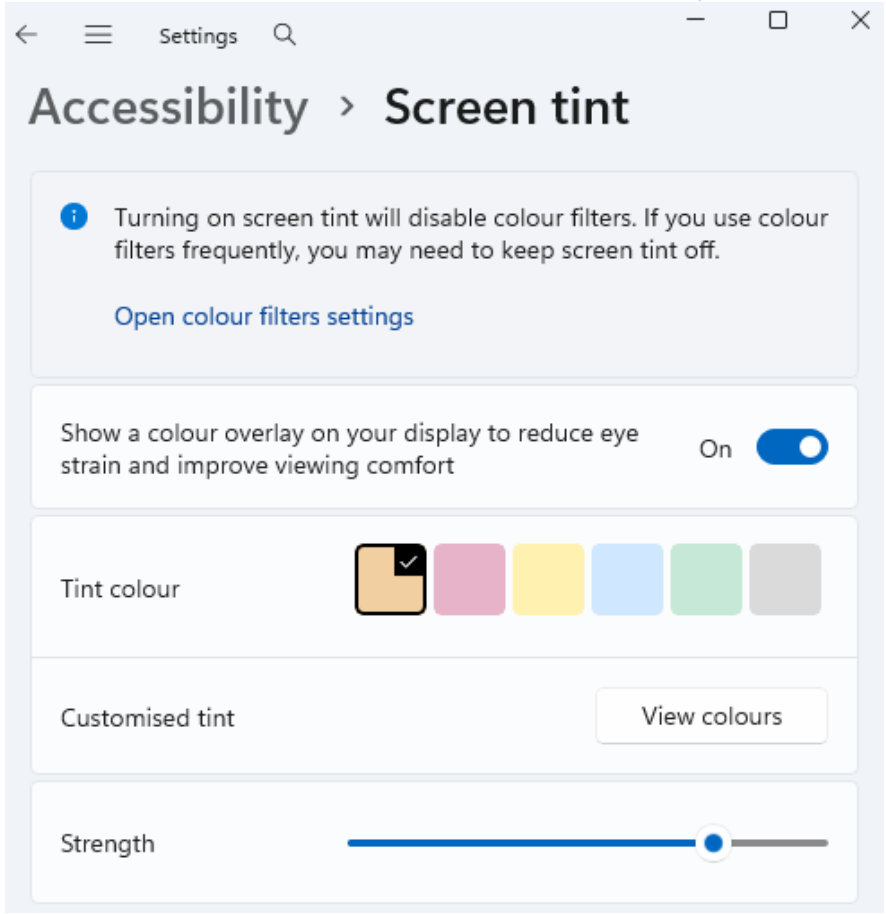

Screen Tint

🔎 **See what's on screen, your way**

Screen Tint can change the colours on your screen to make it more comfortable to look at and help reduce visual stress. Adjust the display to find the colours that work best for you.

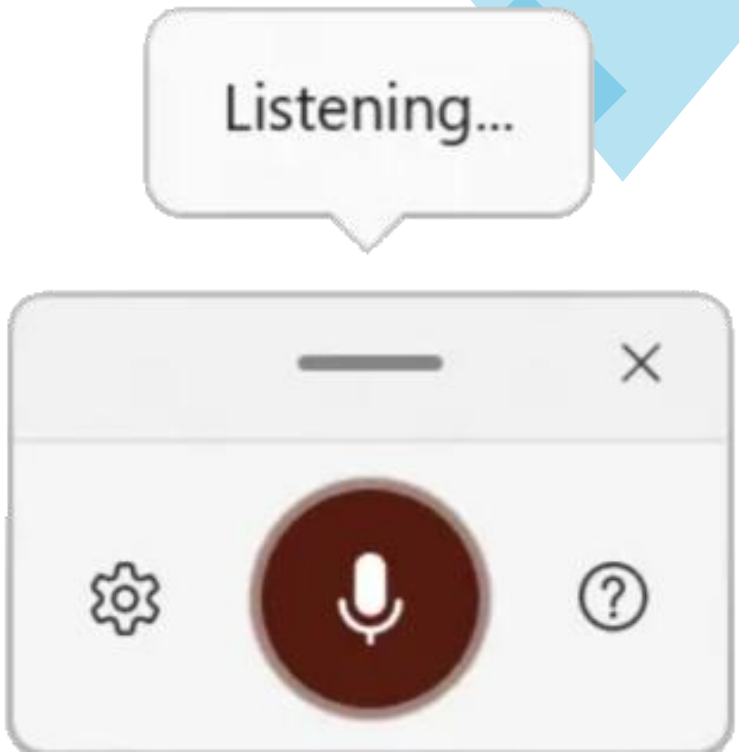

Find it in your Windows settings today!

NORTH YORKSHIRE COUNCIL

Dictation

🎤 **Let your voice do the typing**

Typing doesn’t work for everyone, and sometimes speaking is simply easier. Windows **Dictation** lets you use your voice to enter text, helping make everyday tasks that little bit easier.

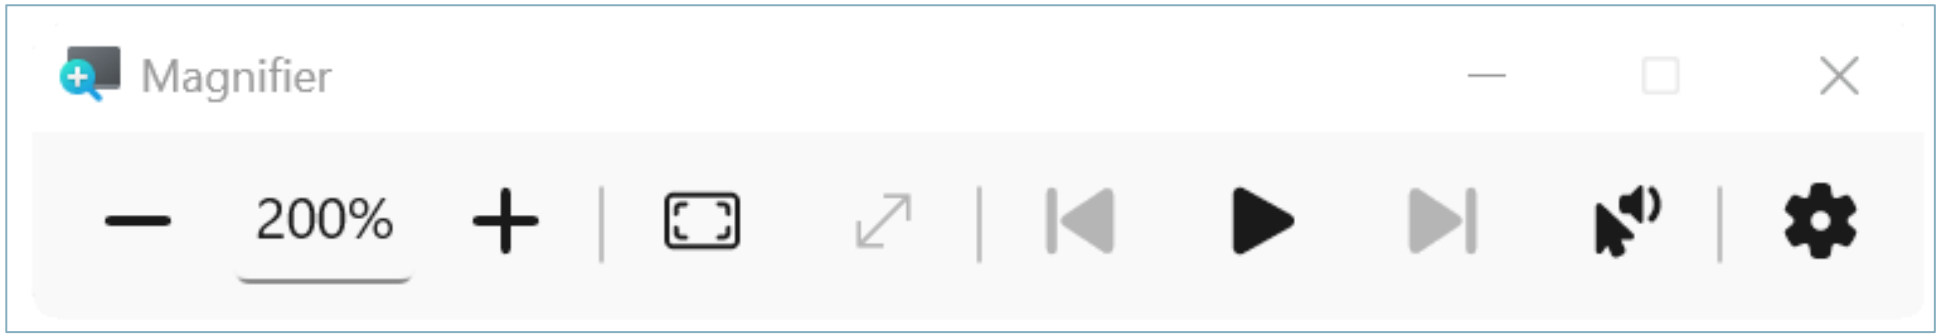

NORTH YORKSHIRE COUNCIL

Magnifier

🔍 Make everything easier to see

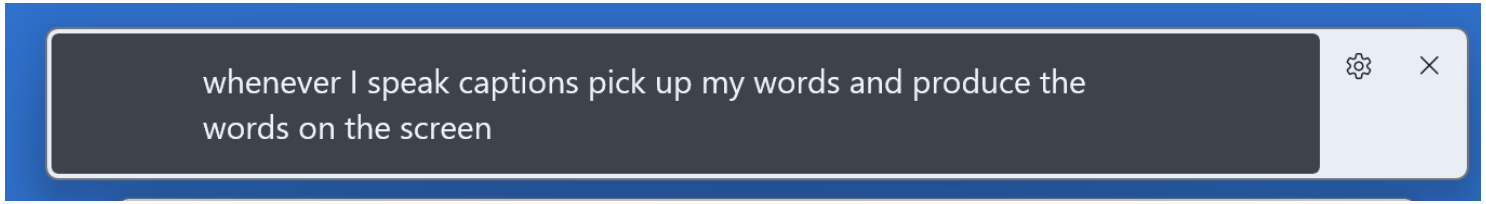

Sometimes things on screen can be difficult to read. **Windows Magnifier** lets you quickly zoom in and make text, images and other content easier to see.

Live Captions

Make spoken words easier to follow

Live Captions turns speech into text on your screen, giving you another way to follow conversations and audio.

Use it when listening is difficult or when seeing the words simply works better for you.
