

Warm & Well

in North Yorkshire

KeyRing

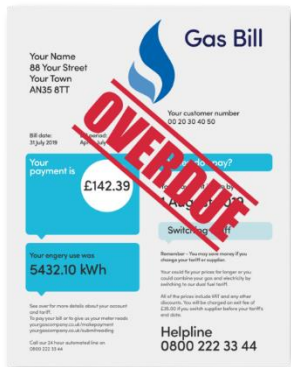

... We're Life Changing

Warm and Well in North Yorkshire works to make sure people have warmer homes and stop people dying from the cold.

Warm and Well can help you to understand the best energy deal for you. They can help you to switch energy companies and save you money.

They can offer advice on **fuel debt**.

Fuel debt is when you owe money to your energy company and you are struggling to pay them.

They can help with **Warm Home Discount** applications

The **Warm Home Discount** scheme offers a one-off payment of £140 towards the energy bills of those who need it most in England, Scotland and Wales.

You will need to check that your supplier offers the warm home discount, as some smaller energy companies do not.

They can offer advice on saving energy. For example, switching to LED light bulbs or turning things off when they are not being used.

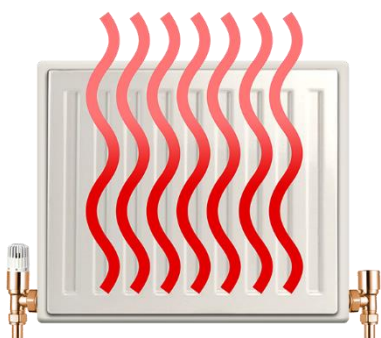

They can help you to apply for funding if you need to buy emergency fuel.

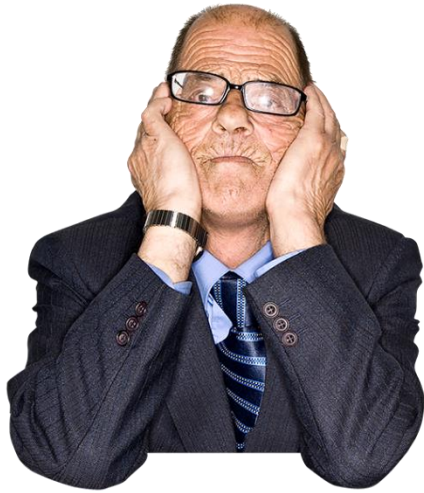

This can include coal, electric heaters, pre-payment cards and gas bottles.

They can offer support and advice if you have had a high energy bill

They can help to arrange home visits for heating and insulation advice.

The support they offer is available to:

- Anyone who is worried about heating their home, or if you can't afford your energy bills
- Anyone who needs support switching energy suppliers
- People on a low income/benefits
- Families with young children
- Anyone with physical or mental health issues.
